The screenshot shows the Colorado State Travel Management website. The browser window is titled "State Travel Management - Windows Internet Explorer" and the address bar shows "http://www.colorado.gov/travel". The website header includes the Colorado logo and the text "The Official State Web Portal". A search bar is located in the top right corner. The main navigation menu includes links for "DPA Home", "Overview", "Capitol Complex", "Integrated Document Solutions", "Fleet Management", and "State Travel Management". The "State Travel Management" link is highlighted, and a red arrow points to the "Auto Rental" link in the left sidebar. The main content area displays the "State Travel Management" title, the "STMP" logo, and a description of the program. The description states that the STMP oversees and monitors all State employee travel, residing within the Department of Personnel & Administration, Division of Central Services. It also mentions that the program provides guidance, education, and compliance support to Travel Compliance Designees, state travelers, political subdivision program participants, and travel vendors. The program also has an advisory body, by way of the STMP Vendor Roundtable. The "Internet Ticketing: Why Not?" section explains that as of July 1, 2009, Fiscal Rule 5-1 for Travel requires the use of the State Travel card for air, lodging, and rental vehicles. It also mentions that the STMP implemented mandatory travel agency agreements in April of 2005 and that travel agents servicing the State of Colorado have access to the contract fares and the most airline inventory available.

The State Travel Management Program (STMP) oversees and monitors all State employee travel, residing within the Department of Personnel & Administration, Division of Central Services. The oversight extends to negotiating and administering contracts with travel suppliers-travel card systems, airlines, rental car agencies, lodging providers, travel agencies and various incidental suppliers. In addition, the Program provides guidance, education and compliance support to Travel Compliance Designees, state travelers, political subdivision program participants and travel vendors concerning the intricacies of the program policies, procedures, compliance, enforcement and rules. This high-volume customer base enables the State to negotiate exceptional rates and benefits. The program also has an advisory body, by way of the STMP Vendor Roundtable.

Internet Ticketing: Why Not?

As of July 1, 2009, [Fiscal Rule 5-1](#) for Travel require the use of the State Travel card for air, lodging and rental vehicles. April of 2005 STMP implemented mandatory travel agency agreements. The travel agents servicing the State of Colorado have access to our [contract fares](#) and the most airline inventory available. Their mission is to find the most economical fare to meet the needs of the traveler's mission. So many times travelers try to find lower fares on the Internet without realizing these are distressed inventory and may or may not even be available for purchase. It is a challenge to compare distressed inventory with regular fares and our contract fares.
